Products and services

Through the interdisciplinary cooperation of various technical disciplines – electronics & software, ADAS & Automated Driving, CAE, material, acoustics, composite, interior & exterior, optical systems, body & high-voltage storage, drive, chassis, passive safety and thermal management – products are developed holistically and independently for customers, mainly from the automotive industry. Together with the expertise of ARRK's sister companies, product developments from virtual development to prototypes and production can be implemented in small series. This way, all services along the product development process can be offered from a single source.

LOCK YOUR EYES ON YOUR CAREER

Hiring criteria

Who we are looking for

In addition to experienced engineers, we are also looking for ambitious graduates who will support our competencies in the development and positioning of our technological strength in the future. In addition to intensive induction, we also offer targeted further training measures in our ARRK Engineering Academy.

Qualifications sought

- **Independent and independent working style**
- **Strong customer orientation**
- **Ability to communicate and work in a team**
- **Analytical and structured thinking skills**
- **Technical-mathematical understanding**

ARRK Research & Development is a subsidiary of ARRK Engineering GmbH which is part of the international ARRK group of companies and specializes in product development. With the help of our expertise in electronics & software, ADAS & automated driving, CAE, material, acoustics, composite, body & high-voltage storage, chassis, interior & exterior, optical systems, passive safety and thermal management, we develop products holistically and independently for our customers as a long-standing strategic development partner. Within the ARRK group of companies, we implement product developments from virtual development to prototypes and production in small series.

ARRK brings together highly qualified specialists to provide customers with first-class technical know-how. Our experts work with the latest technologies for outstanding service in terms of quality, precision and speed. We always strive for top performance and take complete responsibility for products and components during development. We can rely on a strong partner network.

Have you ever wondered what it means to develop or test software solutions used in the **Public Safety** and **Air Traffic Management** domains?

We are looking forward to meeting you and offering you further details about our programs: Develop Your Skills and Master Your Skills.

Let's work together for a safer world!

Cele dedicate non-studenților sunt accesibile la:

Hiring criteria

Angajarea după absolvirea unui program #msgEdulates se face pe baza mai multor factori:

- **feedback general non-tehnic**
- **feedback tehnic din partea mentorilor și trainerilor**
- **feedback-ul internului**

Contact:

msg.cariere@msg.group
reka.vass@msg.group

Informații despre programele de internship:

**msg Romania I
Internship (msg-systems.ro)**

Products and services

Aplicații web și mobile, care vin în sprijinul clienților noștri din sfere precum :

- **Automotive**
- **Insurance/ Reinsurance**
- **Finance and Banking**

Este important, încă din etapa internship-ului, să găsești un mediu în care să te potrivești. De asta, în cadrul interviurilor vei fi întrebăt de pasiuni, respectiv despre ceea ce faci în timpul liber. Ca să ne cunoști mai bine, cred că este important să știi că nouă (celor 700+ angajați din .msg) ne place să citim. Facem destul de mult sport, avem propriul nostru marathon (.msgMaraton Apuseni), ne implicăm în acțiuni umanitare și râdem destul de mult. Dacă te vezi lucrând într-un mediu ca al nostru, cred că este timpul să aplici!

Desired degrees

Programele #msgEdulates sunt concepute pentru studenții din cadrul facultăților tehnice, specializări precum:

**Calculatoare
Automatică și
Calculatoare**

Clujul nu este doar despre IT.

Clujul este și despre Paul, care planifică și coordonează toate proiectele din atelier.

Alătură-te echipei Electroglobal.
Fii parte dintr-o companie care construiește viitorul.

Products and services

Electroglobal este unul dintre liderii naționali în domeniul soluțiilor și echipamentelor electrice, pentru sistemele de automatizări industriale, acționări electrice și sisteme de iluminat.

Fiind prezenți pe piață începând din 2004, Electroglobal a format o echipă de profesioniști, cu înaltă pregătire tehnică, a căror pasiune pentru inovație este pusă în slujba performanței.

Scopul nostru este să oferim soluții pentru eficientizare energetică și îmbunătățirea productivității, propunând soluții personalizate, adaptate business-ului. Vrem ca orice colaborare să se transforme într-un parteneriat de lungă durată, pentru a ajuta beneficiarii să facă față provocărilor pe care le aduce revoluția industrială 4.0.

LOCK YOUR EYES ON YOUR CAREER

Având experiență îndelungată și capabilități variate în domeniu, beneficiind de susținerea unor producători de renume mondiali, venim în sprijinul industriei românești cu:

Echipamente și materiale electrice (peste 100.000 repere livrabile de pe stoc)

Servicii de complexitate ridicată, precum:

- Consultanță pentru definirea unui sistem nou sau modernizarea celui existent
- Proiectare electrică, luminotecnică și de automatizare
- Dezvoltare software pentru acționări și automatizări
- Asistență tehnică la montaj
- Punerea în funcțiune a echipamentelor furnizate
- Uzinare tablouri electrice

How to join the CCC?

10:15PM

Happy, you wanna participate! Register for a location near you on codingcontest.org

10:17PM

Is it for free?

10:20PM

Yes, of course! Just bring your laptop and be on time ;)

10:22PM

What else?

10:25PM

Any coding language is allowed, team up or compete as a single player! Winners get medals, certificates, and prizes. And we prepared some give-aways, snacks and drinks on-site for everyone.

10:28PM

Thanks! I've also joined your Discord channel!

10:32PM

Alright, see you on April 19, 2024!

10:33PM

Internships and working students

We have a long tradition of interns and working students at Cloudflight. And for good reason: Many of us have started off this way and are now working as full-timers.

As an intern or working student you can expect to learn a lot. From your first day, you will be a fully fledged member of your team working on real projects and with the help of your onboarding buddy realizing your own ideas.

Combine uni and work

You will find it easy to combine studying and working at Cloudflight. We offer remote options, flexible working times and a variable number of working hours per week.

Cloudflight Coding Contest

Are you up for the ultimate coding challenge? We host the largest on-site coding contest in Europe with over 4000 participants. Form a team or compete on your own and test your skills against the very best.

Learn more at codingcontest.org
